GENETICS

in motion

1 PM  ·  FRIDAY  ·  OCTOBER 10, 2014

JOHNSTONE AUCTION MART  ·  MOOSE JAW, SK
Welcome...

Everyone remembers the stories from grandpa about times in the past when the family farm made the right decisions that allowed it to prosper for generations. Well ladies and gentlemen... welcome to that time again. The beef business has survived a long stretch of problematic pricing and for those who had the foresight to build their cow numbers during those times I say “CONGRATS”.

We would like to welcome you to join us in Moose Jaw on Friday, October 10th for the sharing of proven genetics. We have assembled an offering with both genetic youth and maturity. You will find donors and proven cows as well as bred heifers from the very top of our pen. You will also notice we have bred them to sires from our program that represent where we are headed in terms of genetic improvement.

We have worked hard to build a program around females that have the ability to produce offspring for the times and that will garner attention from around the world. Our program is about type but not necessarily about a particular frame size. You will find top females in our program from a frame 5 to a frame 6.5 but you will admire them for their fleshing ability, fore rib, base width and overall dimension. We breed with that type in mind and don’t let EPD’s cloud our judgement. You will find females that are top performers in all EPD categories, females that are tops in performance and carcass, females that are tops in maternal traits and marbling and females that are suited for varying environments.

See you on sale day
Kevin Blair

We promised to share some of the very best in this year’s sale and Martini 25W is exactly that. I challenge you to critique this female and find any holes in her. She has a perfect phenotype, an outstanding pedigree with Mulberry, New Trend and Zama Pine and a perfectly balanced data set. Check out the udder and imagine what she can do for your program.

OPEN & READY TO FLUSH.
Offering one-half embryo interest only.

Blairs.Ag and the new partner will either split the resulting embryos from an agreed upon mating or Blairs.Ag and the new partner will alternate flushes. Martini 25W has never been flushed and is currently getting set up for her first flush at the Trans Ova Genetics facility in South Dakota.
Here's a high caliber producer that was slated to go to the Blairs.Ag donor pen next year. Her 2013 heifer calf stole the show in our Class of ‘13 sale last November and sold to Bar EL Angus and GK in Australia for $16,500. This heifer calf also won Reserve Intermediate Heifer Calf honors at the Agribition. A full sister was a highlight in the Red Roundup in 2010 and is now a donor cow at Wildcat Creek Ranch in Kansas. Exposed to Bar E-L AB Judge 5Y June 20 to Aug 20 ECD Mid April.

Red Blair’s Kuruba 10A
Red Blair’s Regal Lady 89W

If you asked me for the one cow that might slip through the cracks in the sale that will be one of the most profitable, then Regal Regal Lady 89W is that cow. Her first calf was our high seller in our 2013 bull sale to Rust Mountain View Ranch. She is a daughter to the famous Moose Creek Regal Lady 56J, Exposed to Bar E-L AB Judge 5Y June 20 to Aug 20 ECD Mid April.

Red JAS Berry 67U

One of my favorites here as I see her as a significant player in someone’s donor program. Check out her video on www.cattleinmotion.com and see how free moving and balanced she is. Lots of options on this one. She has an outstanding heifer calf that will be in our online sale later this fall. Likely safe to the popular maternal sire, Norseman King.

AI to Red 5L Norseman King 2291 June 20 Exposed to Bar E-L Judge June 30 to Aug 30 ECD Late March Favorable to the AI.
Well it doesn't really matter how many you have bought before this cow comes in the ring because you will want her running with your herd bulls. Strike cool.... Super patterned and free moving. Outcross genetics and bred to calve in early March.
Exposed to Bar E-L AB Judge 5Y June 2 to June 30 ECD Early March.

### Red JB Wannabe Nice 9084

**JBL 84W 1536802 March 29, 2009 - BW: 82 lbs - EPD’s BW -2.3 WW +45 YW +57 Milk +14 TM +36**

A super sweet made female here with clean lines, a great udder and her whole future in front of her. The breeding to Kargo should be a perfect match.

**EPD’s BW -1.6 WW +39 YW +59 Milk +18 TM +37**

Ah... here comes a SSS Boomer of one of our very first favorite cows in Red LPC Cherry Ice Lady 5H. The very first daughter of 105U sold in our first Class sale at CWA to Rancho Buenavista in Mexico and went on to be named Reserve National Champion Female in Mexico.

Exposed to Red Ringstead Kargo 215U June 20 to Aug 20 ECD Early April.

---

**WKJ 34U 1471787 January 31, 2008 - BW: 83 lbs**
**EPD’s BW -1.1 WW +45 YW +73 Milk +17 TM +40**

Lady 34U is a typical hard working Smash female. She has proven her ability to raise herd bulls as her last bull sold to TJ Farms.

Exposed to Red Cockburn Encore 106Y June 20 to Aug 20 ECD Mid April.
Here is the one female in the entire herd Neil Haaland says we couldn’t sell. When we committed to making this year’s sale about proven genetics, she came right to the top of the list. Here is the kind of female that works in any program and is the perfect frame 5.5. She had one of the best Red bulls in the 2013 Pursuit of Excellence Bull Sale. Blairs West purchased this outstanding Kargo son. Her sire is a full sib to Cash.

Exposed to Red Haycow Cutting Edge 055 June 20 to Aug 20 ECD Early April.
Red Lucky “C” Goldie 20T

ADC 20T 1379760  January 19, 2007  -  BW: 92 lbs  -  EPD’s  BW +1.9  WW +46  YW +59  Milk +5  TM +27

A model Angus female here with a great udder and a beautiful front end. The Lucky C cows have done nothing but impress visitors and make us money.
Exposed to Red Cockburn Encore 106Y June 20 to Aug 20 ECD Late April.

Kuruba 4T

BBC 4T 1385811  January 22, 2007  -  BW: 62 lbs  -  EPD’s  BW -1.5  WW +42  YW +68  Milk +12  TM +33

Kuruba 4T is a frame score 5, big ribbed female that has a great fit for the breeder that wants highly efficient maternal cattle but struggles to find ones with enough base and dimension. Her first son sold to Glen & Garry Goodsmans.
Exposed to Bar E-L AB Judge 5Y June 20 to Aug 20 ECD Late April.
I can go on and on about the Faith family. Faith 8L (dam) is a frame 6.5 POWER cow and the mother to the 2012 Reserve Champion Female at both Edmonton Farm Fair and Canadian Western Agribition. There are 4 daughters of Faith 8L in our program to date. Faith 10T is the mother of our high seller from our first female to Wraz Red Angus. A daughter to the 10T cow sells as Lot 27. This one needs to be on the trailer headed to your place. TRUST ME!

Exposed to Bar E-L AB Judge 5Y June 20 to Aug 20 ECD Mid April.

A super long made, free moving, big hipped Grand Prix daughter.

Exposed to Red Cockburn Encore 106Y June 20 to Aug 20 ECD Early April.
Rebello 1S is a really intriguing female with super unique pedigree. When you analyze her type you will see a very bright future. I can’t wait to see what the new owner will accomplish here. Her mating to the recently deceased, IronHide, should really work.
Exposed to Red Wrights Iron Hide 4Z June 20 to Aug 20 ECD early April.

We always find females at the Brylor Tradition With A Vision sale that work well in our program. The Sugarland family has been a good one for us. The grand daughter Sugarland 5X sold in our first “Class” sale at Agribition and then won her division at the Denver National Stock Show.
Exposed to Red Cockburn Encore 106Y June 20 to Aug 20 ECD Early April.
The Riverdale program is known for maternal cows with shape and dimension. The Lasie cow will catch your eye for exactly that reason.

Exposed to Red Ringstead Kargo 215U June 20 to Aug 20 ECD Late March.

Remember what I said earlier about Mambo females and how rare they are. Mambo was only released in limited packages and boy did he add performance.

Exposed to Red Wrights Iron Hide 4Z June 20 to Aug 20 ECD Late April.
Ladies and gentlemen.... Here comes one right off the top of our donor pen. She has a proven flush record and we are anxious to have multiple daughters in our program as we go forward. You won’t find a more powerful female with as much rib and bone as Jasmin 48R. Get VERY serious on this one. Owned with Wildcat Creek Ranch.

Exposed to Red Wrights Iron Hide 4Z June 20 to Aug 20 ECD Mid April.
Here is the bred heifer everyone will have marked. Faith 214A goes back to the famous Faith 8L donor. 214A is a maternal sister to the 2012 Reserve Champion Female at Canadian Western Agribition and Edmonton Farm Fair. Her dam sells as Lot 16. The Priscilla family is fast becoming the most popular name in junior circles after Baxter Blair has paraded Red Blair’s Priscilla 44Z across 3 prairie provinces. 44Z is a sister to this soft made haired up Gangster daughter selling here. Gangster is fast becoming the answer for ultra moderate soft made docile show heifers in our program.
An elite genetic combination of Cash with one of our most admired donors, 20S, that is now owned with Rob Saik. Exposed to Red WCAT Powercat 506Y May 30 to Aug 20 ECD Late April.

Yankee 6A comes off the never miss 12W donor. If you want serious predictability in terms of capacity and performance then purchase a 12W daughter. Check out the WW and YW. Yankee 6A is the sister to the famous Sweet Cheeks at Wildcat Creek Ranch.

I have one comment here. If you want a female with phenotype and an ideal udder then think about the Kargo & Mulberry in Bonita 52A. The Bonita family is special to us. 52A really resembles our incredible Kargo daughter, 76X, an upcoming donor in our program.

AI May 18 to Red SooLine Power Eye 161X, Exposed to Red WCAT Powercat 506Y May 30 to Aug 20 ECD Late March.
Jackpot!!!! Have a look at this soggy made heifer that screams performance and then look at her data set. Birthweight, Milk, Maternal Calving Ease and Marbling. Her mating to Cutting Edge could be something special.

HF Prowler and TLA Dana 35L will peak your interest. We were fortunate to secure the 35L donor from the Soo Line dispersal and have flushed her numerous times. This one will be cool.

AI May 19 to OSU Final Exam 3193 Exposed to OSU Final Exam 3193 May 29 to Aug 15 ECD Late February Favorable to the AI.
If you continually look for females to add to your program that are truly different then Oakleaf 311A is for you. Lees Latest Version was super cool with a freaky front end but is no longer with us and the 5W dam is a complete outcross female.

AI May 3 to BNC Game Changer 1Y Exposed to MVF Pioneer 39A May 21 Aug 15 ECD Early February Favorable to the AI.

Christina is a rarely offered Lees Latest Version daughter. She is a little short on ears but she is cool fronted just like her sire.

AI May 18 to OSU Final Exam 3139 Exposed to MVF Pioneer 39A May 21 to Aug 15 ECD Mid February Favorable to the AI.
Daisy 321A comes off a super sound female we purchased from Diamond T. This Latest Version daughter is my personal favorite black bred heifer on offer today if you like them deep sided and ultra moderate.

AI May 16 to OSU Final Exam 3139 Exposed to MVF Pioneer 39A May 21 Aug 15 ECD Early March.
We were fortunate to buy some top donors from the MVF dispersal and the 71L dam to 338A was one of those picks. As soon as possible we put her into our ET program. This was the result of one of our first flushes and we couldn’t be happier. We lost 71L this past year so this mating is even more special. Lady 338A will be a top female in your program.... that I promise.

Exposed to OSU Final Exam 3193 May 29 to Aug 15 ECD Early March.

Belle 348A has fantastic lineage with the great Bella cow in her pedigree. Bella is my favorite Angus cow in the entire nation. The OK 69X dam is super soggy and big ribbed.

Exposed to OSU Final Exam 3193 May 29 to Aug 15 ECD Late April.
One of the most successful matings we have done with Duff New Generation 6107 has been with 43N. We have multiple full sibs in our herd and we are glad to be able to share one in the Genetics in Motion 14.

AI May 20 to Final Exam Exposed to OSU Final Exam 3193 May 29 to Aug 15 ECD Early March.

Power and predictability is what you get in May 385A. She had 8 full sib two year old brothers sell in our Pursuit of Excellence 12 bull sale.

Exposed to OSU Final Exam 3193 May 29 to Aug 15 ECD Early March.
A great pedigree should be lined with great cows so this one is perfect then because Wilbar Ruby 955N shows up twice. Double your pleasure and take home both the HF Exclusive bred heifers.
Exposed to OSU Final Exam 3193 May 29 to Aug 15 ECD Early March.

Big time EPDs and a Big Time pedigree is what we have here. Motive’s are rare and always in demand. I can tell you from personal experience that Motive x Final Answer is super cool.
AI May 21 to OSU Final Exam 3139 Exposed May 29 to Aug 15 ECD Early March.
Lucy 520A is a granddaughter of the highly proven SAV Pioneer. This heifer is a little short on ears but is super sweet made with extreme extension in her front end.
Exposed to OSU Final Exam 3193 May 29 to Aug 15 ECD Early March.

Check out the data set on this heifer and then look at both the uniqueness and the predictability in the pedigree.
Exposed to OSU Final Exam 3193 May 29 to Aug 15 ECD Mid April.

A very unique one here. Very seldom will you find Scotchcap 9440 and SAV Density in the same pedigree. We have very few Pit Boss daughters but the ones we have are powerful.
I am seriously having second thoughts here. Lady Anne 935S is the kind of power donor that doesn’t come for sale except in a dispersal. Roblin Farm Services, Larry Neilson and Semex all own special Lady Anne offspring. If you want Angus cattle that will produce lbs of beef through depth of rib and length of spine then check out 935S.

MIKE 108X 1578817 April 8, 2010 - BW: 82 lbs - EPD’s BW +3.9 WW +38 YW +66 Milk +14 TM +33

I love this female. Her first bull sold in our bull sale to Lazy KC Farm. She is great hipped, big ribbed and has a fantastic udder. Exposed to Remitall F Odyssey 67X June 20 to Aug 20 ECD Late April.
When you find a Duff New Generation 6107 female for sale you need to buy her. Brienna 110X is owned by Jessica Andrews and came out of our very first “Class” sale at Canadian Western Agribition. Her dam sells as Lot 70 Exposed to SooLine Locomotive 1403 June 15 to Aug 20 ECD Early April.

This mating only happened once and wow did it work. A full sister is owned by Rob Saik and Black Sands Land & Cattle. This is a combination of a frame 7 power Scotchcap 9440 donor and the frame 5.6 Duff New Generation 6107. Owned by Jessica Andrews. Exposed to SooLine Locomotive 1403 June 15 to Aug 20 ECD Early April.
You be judge on sale day on which one’s the best. We challenge you that if you can’t see their tag, you can’t tell them apart. Both are very quiet and would make nice junior projects. They are also eligible for our Jr. Scholarship program.

OPEN.

These SAV Pioneer full sisters are very cool and are off the highly proven Tibbie 60M donor we purchased at the MVF dispersal. They are the only heifer calves to sell in this year’s Genetics in Motion sale. They are powerful heifers that should stay together if possible. You will admire the strength of top in these heifers and how much dimension is in their pins.

OPEN.
